Career Story

I started my professional journey in a salon in my hometown where I learned the basics of hair styling and client service. Later, I moved to Beirut and joined **Richy El Rassi Salon**, where I worked for 10 years. During this decade, I had the privilege of working with high-profile artists and celebrities, including the renowned actress **Carmen Lebbos**, the singer **Hiba Tawaji**, and director **Rindala kodeih**, among other prominent figures in the art industry. This experience provided me with a deep expertise in modern hair fashion and high-end client service.

After my experience in Beirut, I opened my own salon in my hometown where I managed all operations, organized appointments, supervised a team of two employees, and handled busy working days with confidence.
